“The fishing was beyond our imagination. Myler and I caught at least 100 char per day, and this is no exaggeration.

Calvin (camp manager) and Carole (cook) took very good care of us. The food was excellent. My first experience with tides. I was amazed.”

“ It is very rare to catch Arctic Char on dry flies. However the Arctic Char in the Payne Bay waters readily strike a skittered Salmon bomber. What an incredibly strong fish !”

“Great Arctic scenery, new flowers and plants recorded. Oh yes, 50 to 100 fish per day for Bill and I to record on tape. Paul, Donald, Steve and Denis reeled them in almost constantly.”
